SUMMARY

Software Engineer with 2+ years of experience building full-stack web applications with the MERN stack (React.js, Node.js, Express.js, MongoDB) and MySQL. Currently at Prashanti Hospitals, building a patient website and portal and connecting it to the hospital information system. Previously SDE-I at Seereon and Software Developer at Web Bocket. MCA graduate (grade 8.45). Open to Software Engineer, Full Stack, MERN, Backend and Java Developer roles.

EXPERIENCE

Software Engineer, Prashanti Hospitals — Jun 2026 – Present

- Build and maintain features for the hospital's patient website and patient portal in Next.js and React, including appointments, browser-based video consultations, reports and test results.
- Connect the website to the hospital information system, so departments, doctor ratings, packages, contact details and enquiry forms use live data instead of hard-coded content.
- Resolve QA and UAT findings across clinical and billing modules (operating theatre, nursing, insurance claims, discharge, emergency), recording each fix with test evidence.
- Improve responsive layouts and navigation on public pages, including the header menu, rehab pages and hero sections.

SDE-I, **Seereon**, Bhubaneswar — Jan 2026 – May 2026

- Developed scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB and MySQL.
- Designed responsive user interfaces using React.js, HTML5, CSS3, Bootstrap and Tailwind CSS.
- Built and integrated secure RESTful APIs using JWT authentication and role-based access control.
- Optimized database queries and backend APIs to improve application performance.
- Collaborated with cross-functional teams using Git and Agile methodologies.
- Debugged and resolved production issues while improving code quality and application reliability.

Software Developer, **Web Bocket Software Pvt. Ltd.**, Bhubaneswar — Nov 2024 – Dec 2025

- Built and enhanced enterprise web applications using the MERN stack.
- Integrated REST APIs with frontend applications to deliver seamless user experiences.
- Developed responsive UI components using React.js, HTML5, CSS3, Bootstrap and Tailwind CSS.
- Worked with MongoDB and MySQL for database design and optimization.
- Participated in code reviews, testing, bug fixing and deployment activities.
- Collaborated with team members to deliver projects on schedule.

Web Developer, **Self-employed** (part-time) — Mar 2024 – Oct 2025

Web Development Intern, **Bharat Intern** (remote) — Sep 2023 – Oct 2023

PROJECTS

Personal Portfolio Website · HTML, CSS, JavaScript · GitHub

- Single-page portfolio with an introduction, profile images and a downloadable resume.

Temperature Converter · HTML, CSS, JavaScript · GitHub

- Web app that converts temperatures between Celsius, Fahrenheit and Kelvin, with a one-click reset.

Banking Management System · HTML, CSS, JavaScript, Bootstrap

- Web application for transferring and receiving money.

EDUCATION

Master of Computer Applications (MCA), **Ajay Binay Institute of Technology**, Cuttack (Biju Patnaik University of Technology, Odisha) · Grade 8.45 — Sep 2022 – Jun 2024

- Coursework: Software Development, Full-Stack Web Development, Database Management Systems, Operating Systems, Data Structures and Algorithms, Computer Networks, Object-Oriented Programming.

Java Full Stack Development Course, **QSpiders** — Mar 2024 – Oct 2024

B.Sc Chemistry (Hons), **Upendranath Sarada Mahavidyalaya**, Jajpur (Utkal University) — 2018 – 2021

Intermediate (CHSE), **Dharmasala Mahavidyalaya** — 2016 – 2018

Certifications: Web Development Fundamentals (IBM) · PGDCA (Visual Computer Education)

SKILLS

Languages: JavaScript, Java, C, HTML5, CSS3
Frontend: React.js, Next.js, Bootstrap, Tailwind CSS, WordPress
Backend: Node.js, Express.js, RESTful APIs, JWT authentication, role-based access control
Databases: MongoDB, MySQL, Supabase
Tools and practices: Git, GitHub, Agile, code reviews
Interests: learning new technology, coding, listening to music, travelling
